Notes

Common code upgrades have been included for reference only. Quantities have been set to zero and not included in the final price. This quote is for a standard replacement of a water heater only. If the water pipes, gas pipe or vent is damaged, leaking or not up to current code, those repairs will be quoted on site and you are under no obligation to move forward with the installation if you do not agree with our assessment. This is our good faith effort to give you easy access to pricing for our water heater replacements.

Items	Unit Price	Quantity	Amount
(BW40T10EL) Bradford White 40 Gallon Tall 10 Year Warranty Electric with Installation	1615.35	1.00	1615.35
<i>Electric water heater with standard installation. Price includes water heater, delivery, installation in the same location facing the same direction, connection to existing hot/cold water lines, electric wire. Additional connections such as recirculation line, geothermal furnace or hydronic heating connections will be additional. Permit if required is additional. Price includes drain pan with 10ft or less of PVC drain pipe and 3 or less elbows to nearby floor drain. Additional code upgrades or pipe repairs are additional. Price takes into account that there will be safe access to the current water heater using an appliance dolly. If a water heater has to be lifted over an immovable object or carried, additional charges will apply. Reasonable protection to property will be included anything beyond that can be extra.</i>			
Cold Water Shut Off Valve (Code Upgrade)	124.99	0.00	0.00
<i>Turn-off water at the home's working main water valve. Drain down plumbing system. Supply & Install new valve as to isolate water heater per local code. Provide 3 year warranty on product and installation.</i>			
Cold Water Expansion Tank, 2 Gallon Replacement (Level 1)	124.99	0.00	0.00
<i>Provide & replace existing 2 gallon cold water expansion tank per local code. Provide 3 year warranty on connection & one year warranty on tank.</i>
